AMRO Hosting

Food

AMRO can be as big as the amount of food that can be cooked in the largest pot in the stwst, which is around 100/115 portions.

Actually, to have a good AMRO, some less participants should be included in the program.

Food team needs at least 3 or 4 people.

Don't underestimate trasportation. During the festival a car is needed mostly for food logistics.

Food logistics:

- cooking happens at stwst. transport to be organized.
- cutlery needs to be reserved at raml.
- tischgarniture from freistädter
- drinks and dinner in various locations. don't forget transport logistic.
- donation boxes!

Drinks

- get additional fridges from freistädter. delivery needs to be organized.
- better ordering more drinks beforehand, but do not exaggerate. we still need to manage it onsite and pack it together after the event.
- non-alcoholic beverages are important

Hosting (hotels / private stays)

AMRO is organized with a system of private stay and some other accommodation modalities.

Hosting / community cuddles

- compile and share festival survival kit
